- A new care plan and medication/treatment order must be submitted each school year.
- If any changes are needed to the care plan, it is the parent/guardian's responsibility to contact the school nurse.
- It is the parent/guardian's responsibility to alert all other **non-school** programs of their child's health condition.
- I understand that the school district cannot be held responsible for negative outcomes resulting from my child self-administering their medication at my request.
- Medical information may be shared with school staff working with my child and 911 staff, if they are called.
- This is a life-threatening care plan and can only be discontinued by the LHP.
- I authorize the exchange of information about my child's asthma between the LHP office and the school nurse.

My child needs classroom, school activity or recess accommodations Yes No
 If yes, please contact the school counselor or 504 coordinator.

I have reviewed the information on this care plan/504 and medication/treatment order and request/authorize trained school employees to provide this care and administer medication/treatments in accordance with the Licensed Healthcare Provider's (LHP) instructions.

- Student** (for all students but required for student who self-carries/self-administers rescue inhaler and/or EAI):
- I have demonstrated the correct use of the rescue inhaler and/or EAI to the medical provider and the school registered nurse.
 - I agree never to share my inhaler and/or EAI with another person or use it in an unsafe manner.
 - I agree that if there is no improvement after using inhaler and/or EAI, I will report to an adult.

Student Signature (Required) **Date**

- **The care plan is intended to strengthen the partnership of families, healthcare providers and the school. It is based on the NHLBI Guidelines for Asthma Management.**
- Some students are capable of carrying and using their quick relief inhaler by themselves. The student, student's parents, school nurse and health care provider will collectively make this decision. The school nurse must also evaluate technique for effective use.
